DESCRIPTION

Coffee table model K10 N published by Tecta, Germany.

The cubic wooden structure, lacquered in white, supports four rotating tops painted in the primary colors red, blue, yellow and light grey, arranged around a central white square. This chromatic and geometric composition directly echoes the aesthetics of the De Stijl movement and the world of Piet Mondrian. With its clever system of extendable tops, the model combines function and artistic expression, in line with Tecta's modernist explorations.
