DESCRIPTION

Dining table designed by the glass artist duo Martine and Jacki Perrin, known as Perrin & Perrin.

Created around 1990, this piece features a stainless steel base with a circular foot and conical stem supporting a wide, hand-blown dark blue glass top. Three discreet metal arms hold the glass slab, whose reflections and texture highlight the Perrins' exceptional mastery of light and material.

Renowned for their work at the intersection of art and design, Perrin & Perrin have been exploring since the 1980s the fusion of glass, metal, and light.
